

KAWAI
THE FUTURE OF THE PIANO

DIGITAL PIANO CL25

Slim & Stylish

STYLISH DESIGN

With elegant curves and graceful simplicity, the improved KAWAI CL25 represents a timeless classic from award winning designer Tomoyasu Ikegawa. At just 28cm deep, this ultra-compact digital piano occupies a minimal amount of floor space, blending effortlessly into today's modern living environments. From aspiring professionals with a passion for music, to young families wishing to encourage artistic expression within the home, the KAWAI CL25, available in either distinguished natural Rosewood or fashionable Cherry finishes, offers exceptional quality at an attractive price.

EXCEPTIONAL TONE

The authentic sound of KAWAI digital pianos begins with the world renowned KAWAI EX Concert grand piano. Placed inside an anechoic chamber, free of audio reflections, the rich sound of this world class instrument is meticulously analysed and recorded by our Master Piano Artisans. The acoustic portrait of each note is later transformed into a precise three dimensional digital representation, employing KAWAI's proprietary *Harmonic Imaging™* technology. This unique process faithfully reproduces the broad dynamic range of the original grand piano, from subtle pianissimos to thunderous fortissimos.

SUPERIOR TOUCH

Developed to accurately represent the touch of a real grand piano, the redesigned Advanced Hammer Action IV keyboard adopts KAWAI's remarkable springless construction, for a smoother, more natural, piano feeling. Just as acoustic pianos utilise heavier bass hammers and lighter treble hammers, the AHA-IV keyboard also employs different hammer weights, appropriately graded for each playing range. This innovative *Acoustic Reaction™* technology provides greater stability during fortissimo passages, while preserving delicate pianissimo control, to satisfy the demands of even the most discerning pianist.
